# Milan Serravalle - A51

Road infrastructure

Under the scope of these works, renovation of the Lambrate interchange and the access road to the A51 Segrate Intermodal Centre - East Milan ring road are in progress.

This motorway infrastructure fringes the city and the area east of Milan and, together with the A50 and A52, is the most extensive system of urban ring roads in Italy, carrying a flow of more than 70,000 daily transits on its roads.

Year	2007-2015
Client	Milan Serravalle
