# New Health Center Bologna

Healthcare Facility

The new Health Center will be built in the area of the former fruit and vegetable market in Via Fioravanti, in Bologna. The building has four floors, with a gross area of approx. 6,150 sqm. The ground floor is the area more accessible thanks to the rectangular covered square, here are placed the general medical services, such as: sampling points, clinics, CUP. From the first floor are placed medical services with greater value. Finally, in the basement, there is a parking of 1,260 square meters.

The entire building will be built in about 24 months and thanks to the concession contract we will take care of management services for the next 12 years.

Year	2015
Client	Azienda Unità Sanitaria Locale di Bologna
Works duration	24 months
Duration of concession	12 years
